MALTHOID ROOFING

MALTHOID Roofing is the latest product of THE PARAFFIN PAINT CO., and is the result of years of experiment and research, combined with a practical knowledge of weather and waterproof materials.

It was not offered to the trade till thoroughly tested and perfected.

It is a twentieth century ready roofing, and is as far ahead of other ready roofings as is the automobile ahead of the "Prairie Schooner."

It is made of high-grade wood-fibre felt, saturated with a gummy, waterproof compound that will not dry out or rot, and coated with a non-oxidising, weather-proof material, so combining the qualities necessary to secure a perfect protection against the elements at a minimum cost.

MALTHOID is not to be classed with cheap roofings, though low in price. It is a high-grade product, suited to the covering of Warehouses, Mills, Barns, Sheep Sheds and other buildings on which a roofing, light in weight, though possessing the other qualities of a perfect roofing, is desired.

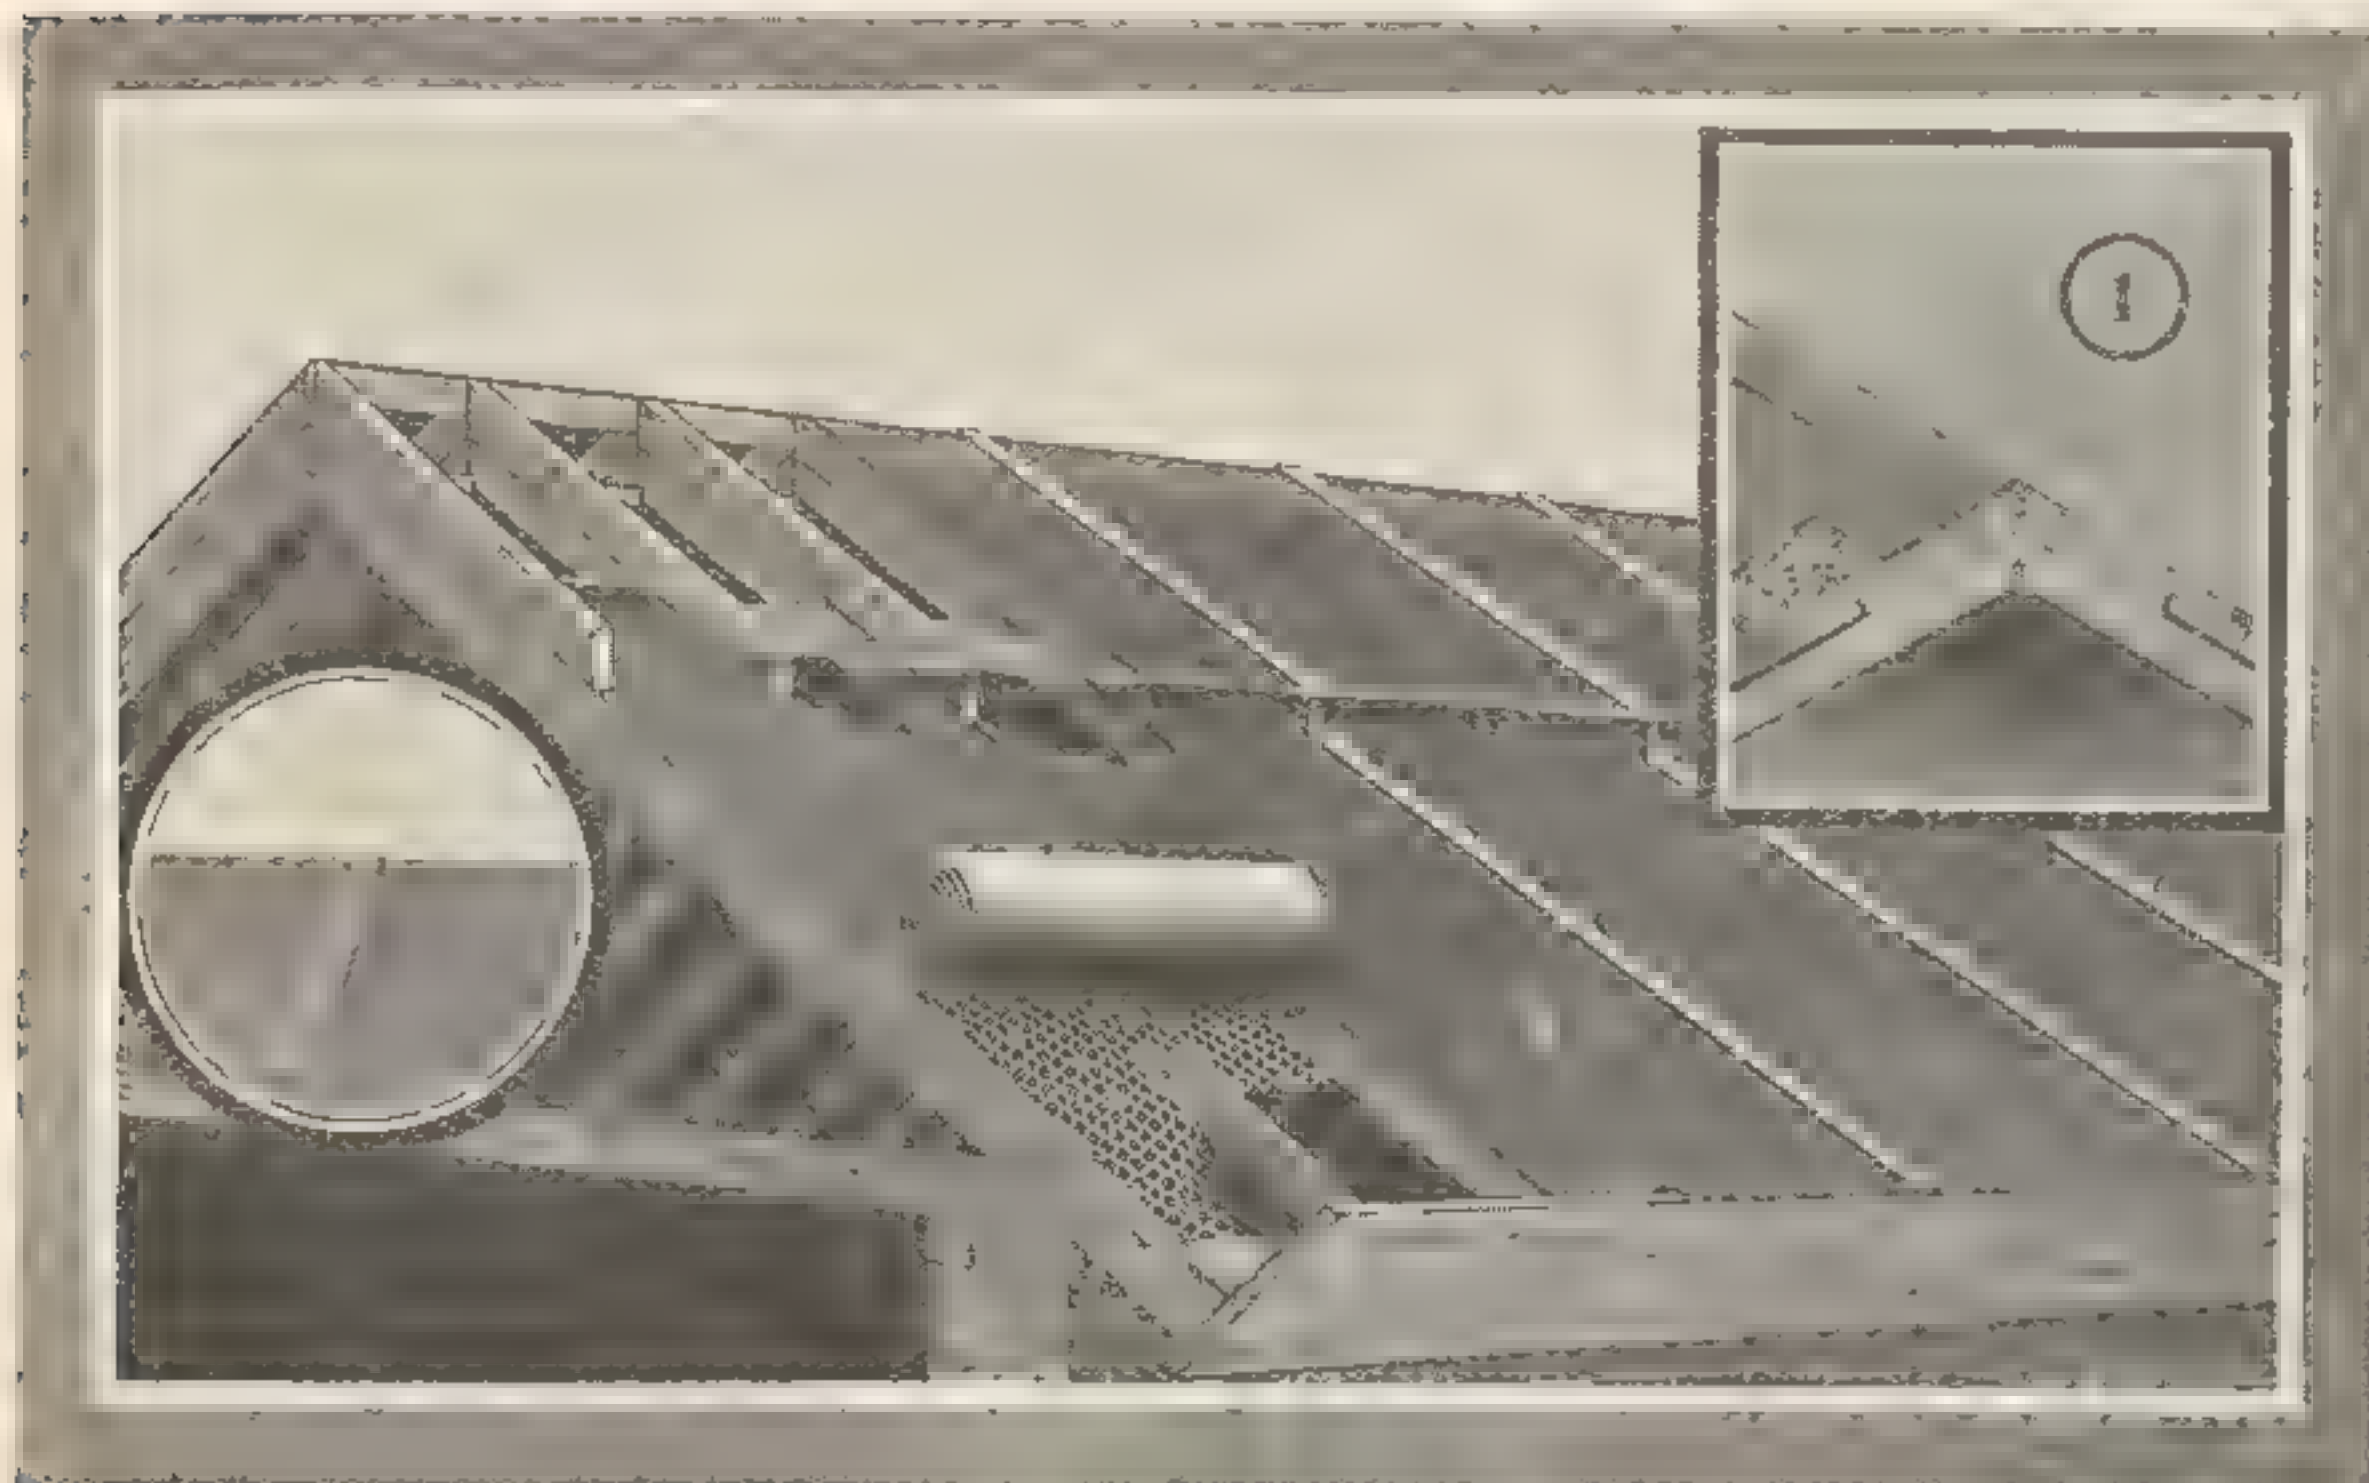

MALTHOID Roofing is 36 inches in width, and is put up in rolls containing sufficient to cover two squares -10x20—after allowing for a two-inch lap.

With each roll is furnished, without extra charge, tin caps and nails and cement for seams. Malthoid Roofing does not require to be painted or coated when laid. This greatly reduces the labour cost and makes it the cheapest roof on the market.

It is made in four thicknesses and weighs as follows per square:—Half ply, 25 pounds; 1 ply, 35 pounds; 2 ply, 45 pounds; 3 ply, 55 pounds. These weights are exclusive of nails and cement, which are packed in separate packages, and weigh 4 pounds to the square.

When you find this Trade Mark on Roofing and Dampcourse you know you have the Best

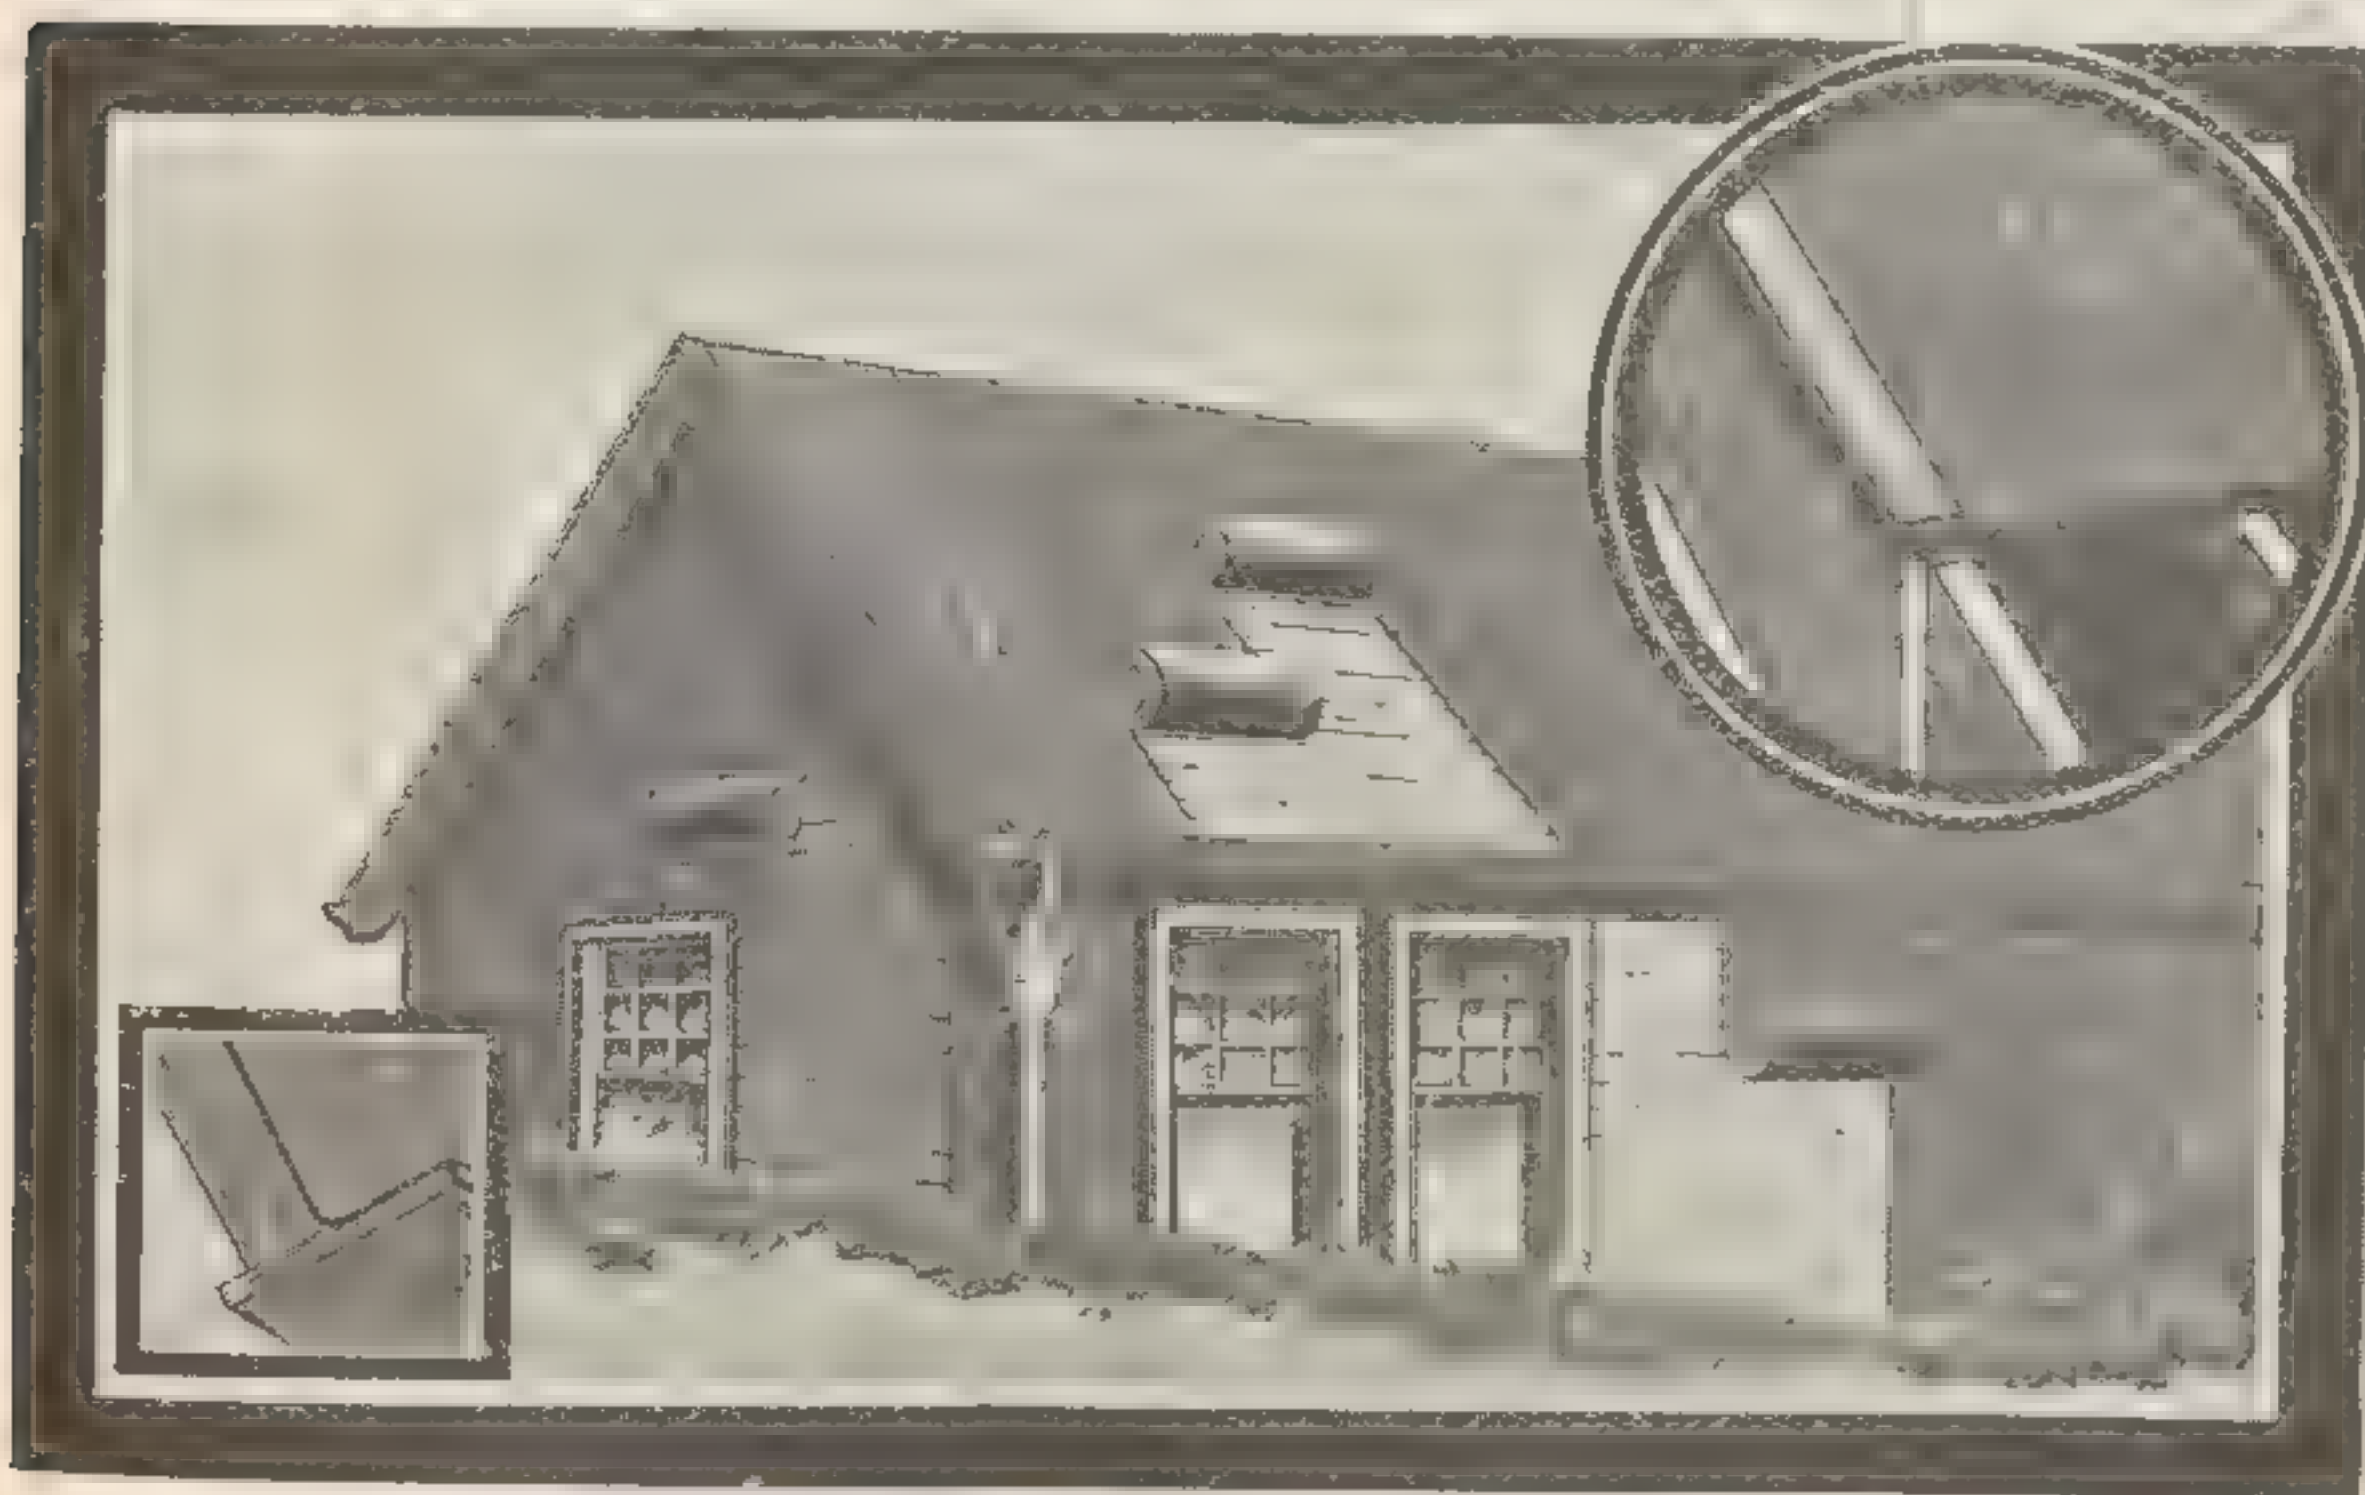

MALTHOID ROOFING

ENDURANCE—Malthoid requires but little attention after being properly laid according to the directions placed in each roll. Unlike most ready roofings, it does not require a protective coating of paint at the time of laying. It is finished when the seams are cemented, the nails driven, and the nail heads coated. Later on (eighteen months or so), a coat of P. & B. Red Roof Paint may be applied to advantage, and after that, say about every three to five years, after which Malthoid will outlast the building it covers. Without this extra coating of paint, Malthoid will outlast any portable roofing of a similar character

1. Ventilated Ridge laid over Wire Netting 2.—Ordinary Ridge laid over Boards
3. Details of a Roof laid on Wire Netting

N.B. Wire Netting should not be used where subject to heavy hailstones
If liable to hailstones over three-quarters of an inch in diameter, wood backing should be used, and is perfectly safe

- 1.—Malthoid Roofing laid over Boards 2.—Gutter formed with Malthoid Roofing
3.—Nosing over Barge Board

WEIGHTS.—Malthoid is made in four thicknesses, and weighs as follows per roll:—Half ply, 58 lbs.; 1 ply, 80 lbs.; 2 ply, 90 lbs.; 3 ply, 114 lbs. These weights are inclusive of nails, cement, paint and washers, which are packed in separate packages, and weigh about 8 lbs. to the roll.

We shall always be pleased to send Samples of Malthoid and P. & B. Goods promptly on request

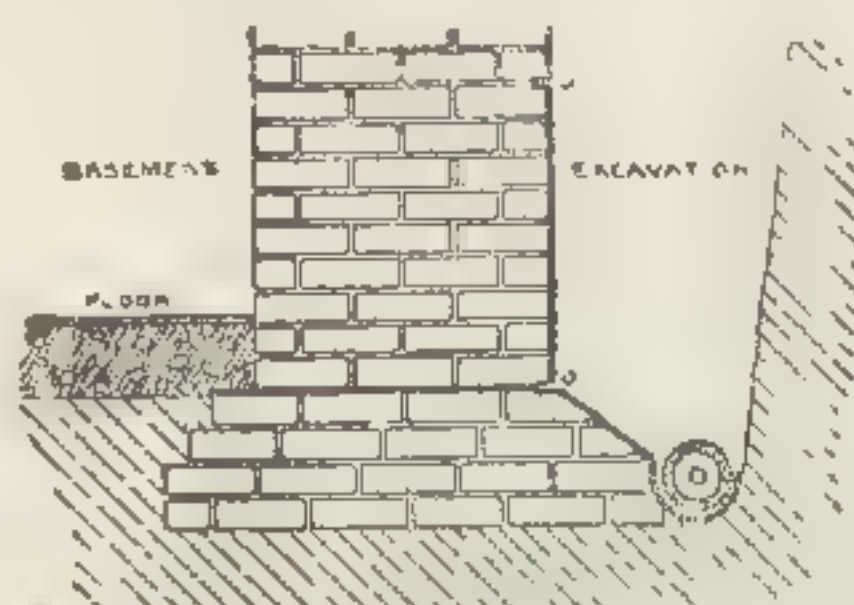

ASK FOR THIS BRAND OF
BUILDING PAPER, PRESERVATIVE PAINT, RED ROOF PAINT & MALTHINE PAINT

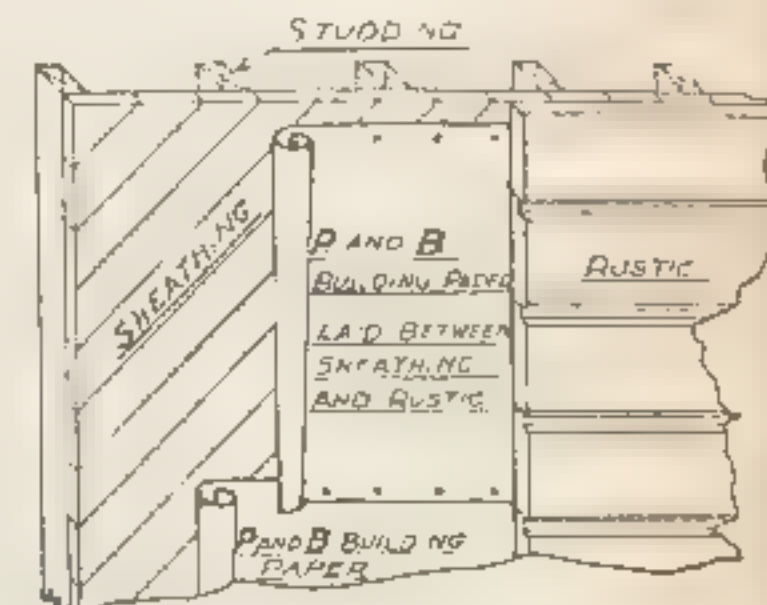

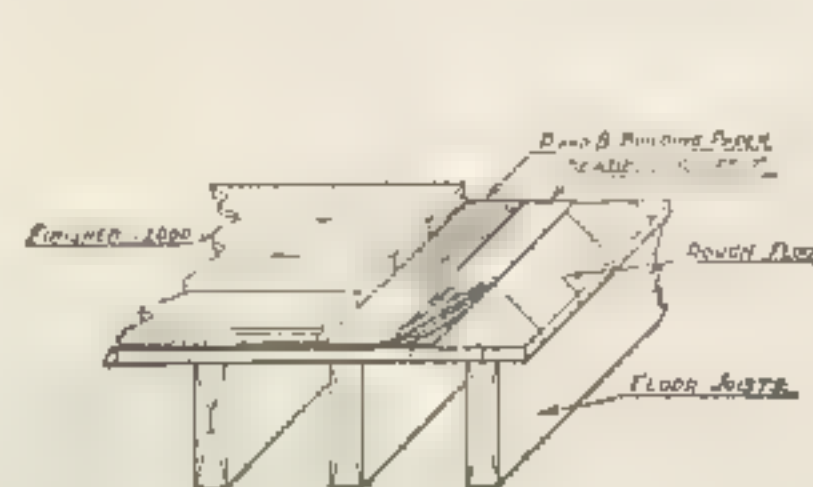

An approved method of Waterproofing Floors, and also of rendering them impervious to earth and sewer gases and objectionable odours.

Horizontal Dampcourse

Vertical Dampcourse

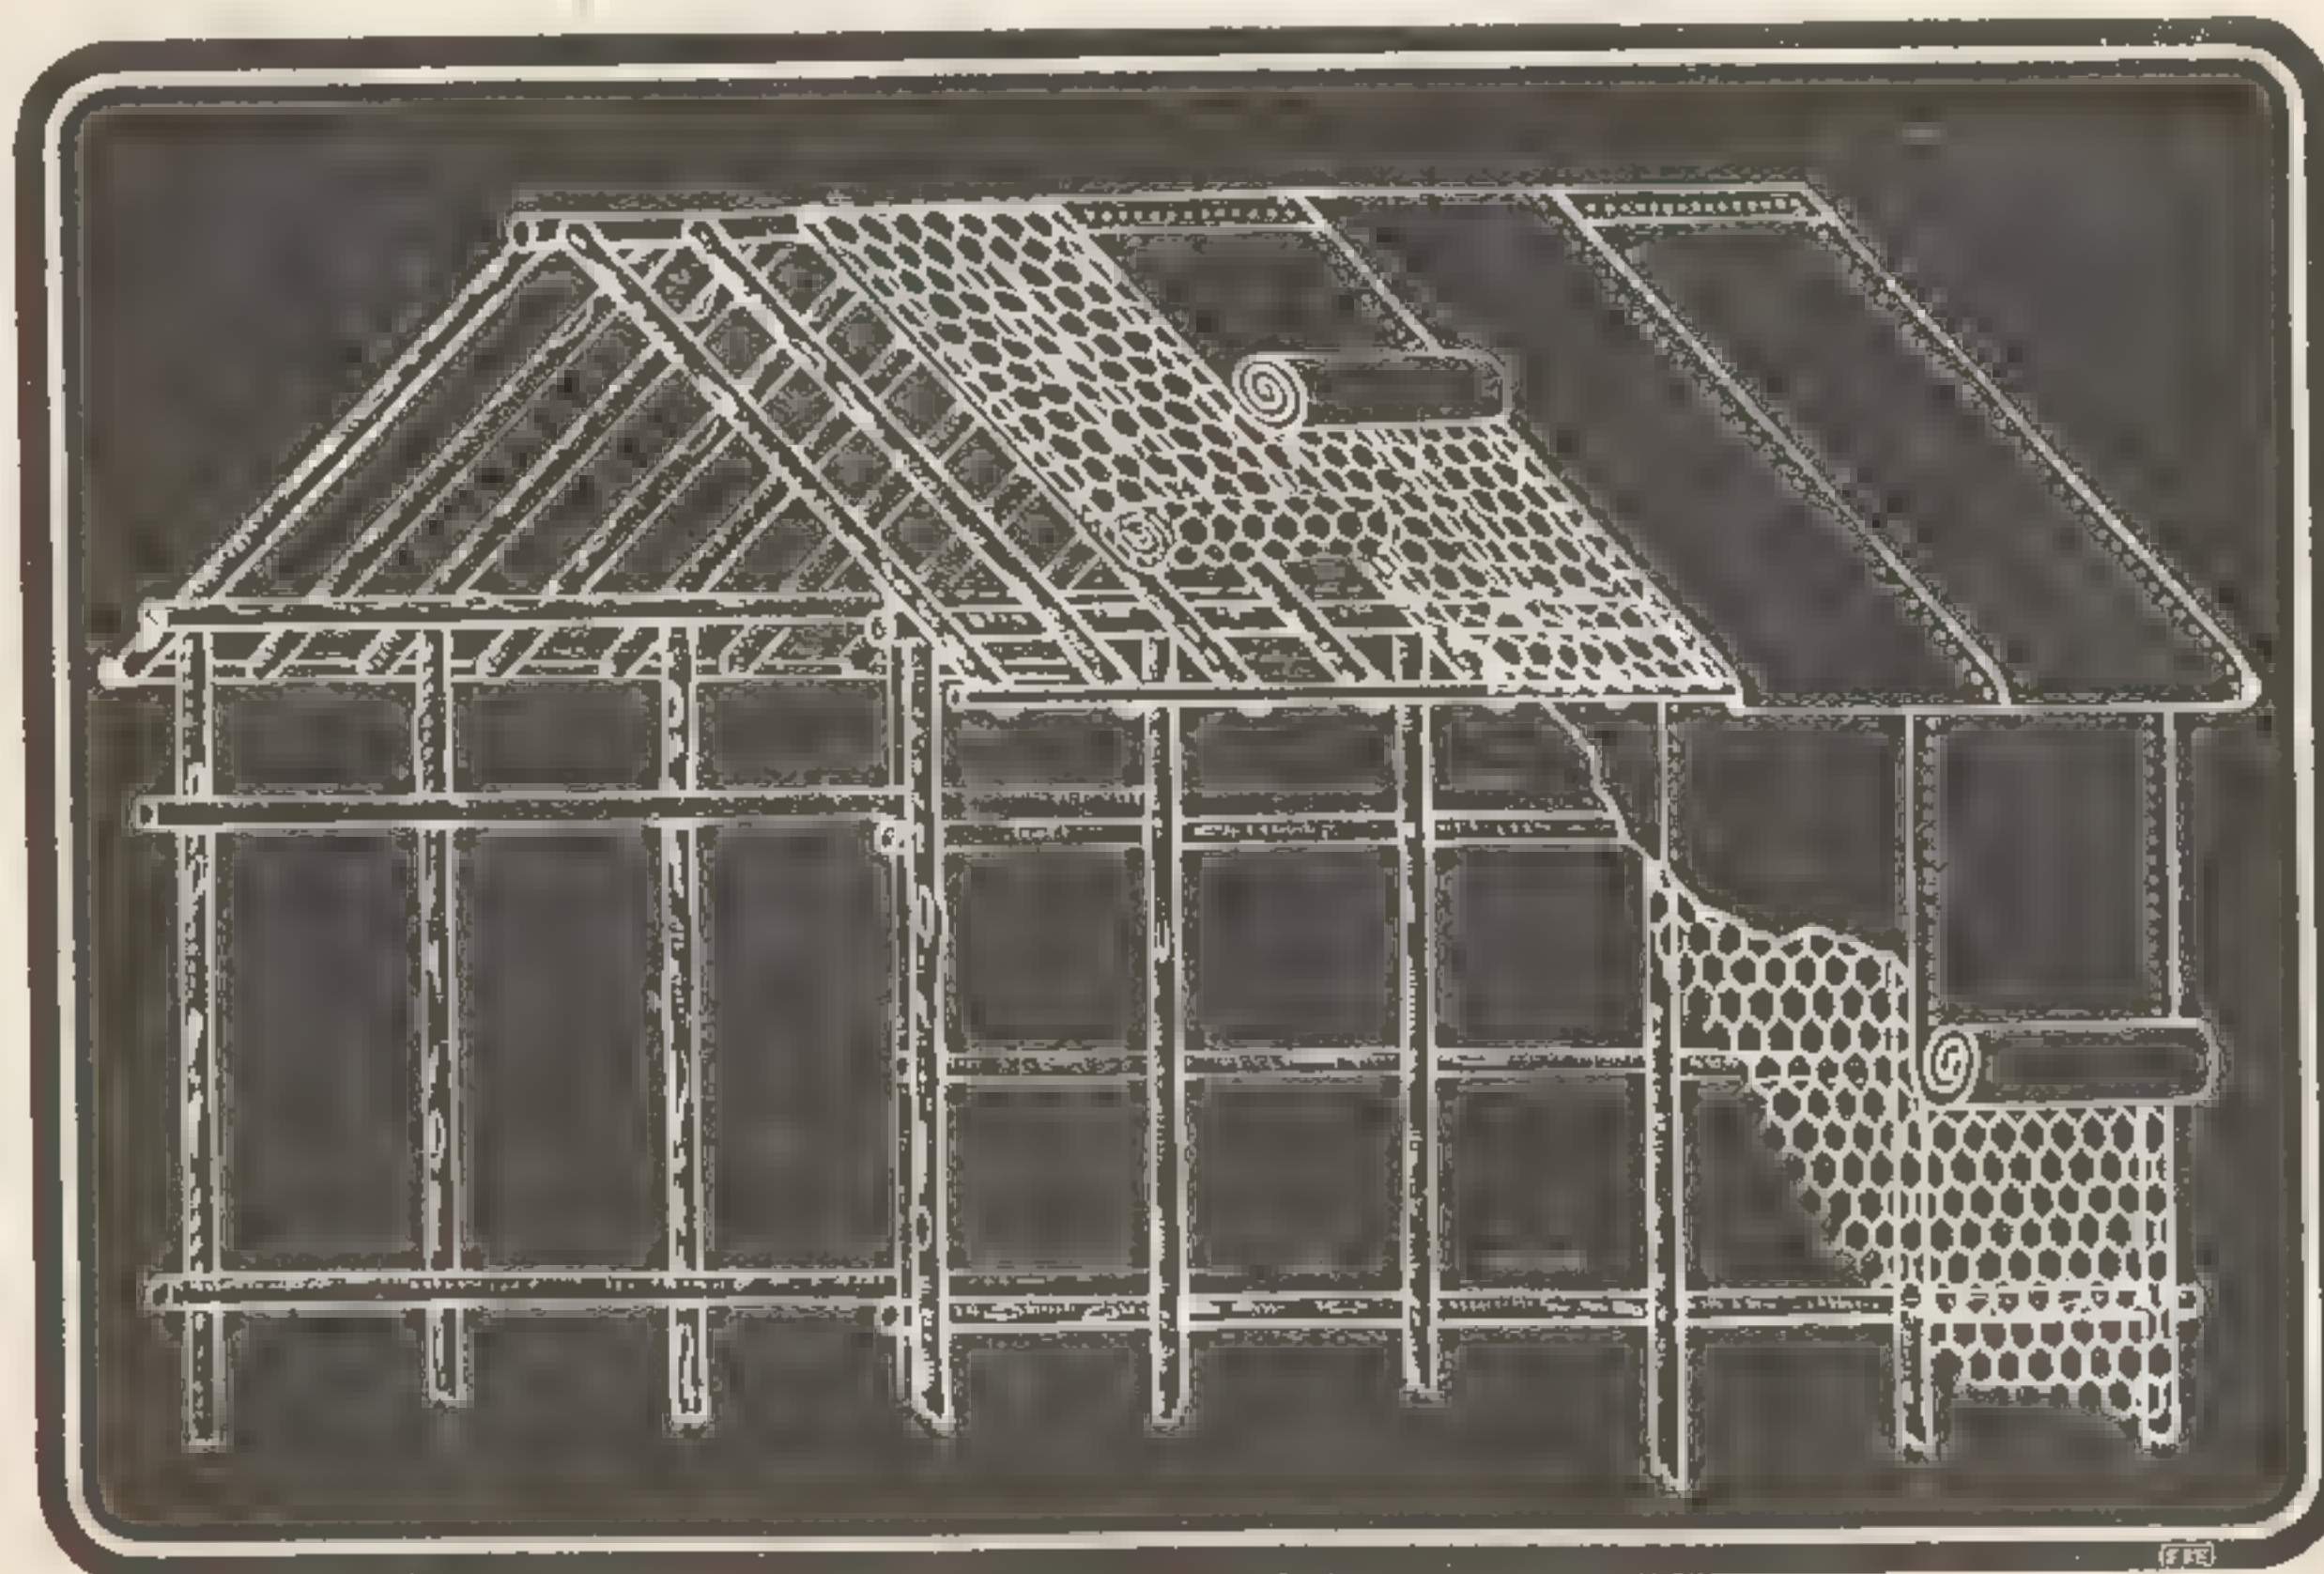

MALTHOID DAMPCOURSE

Is used in foundations of buildings to prevent the transmission of moisture up into the wall of the place of business, or of the home, and is one of the greatest safeguards to health and life. But it must be permanent. It is also used with great success over window and door openings and under window sills in cavity walls.

P. & B. BUILDING PAPER

The essentials of a perfect Building Paper are strength, durability, imperviousness to moisture and absence of odour. P. & B. Building Paper fulfils these requirements fully and is the only Building Paper manufactured that does. It is made of rope Manila fibre, which gives it great tensile strength. It is saturated and coated with P. & B. Compound, which makes it durable, waterproof and odourless.

MALTHOID ROOFING

MALTHOID makes a roof comfortable all the year round
You can build a humpy quickly and cheaply by laying MALTHOID over wire netting

THE "GRAPPLER" PATENT SASH FASTENER
(APPLETON'S PATENT)

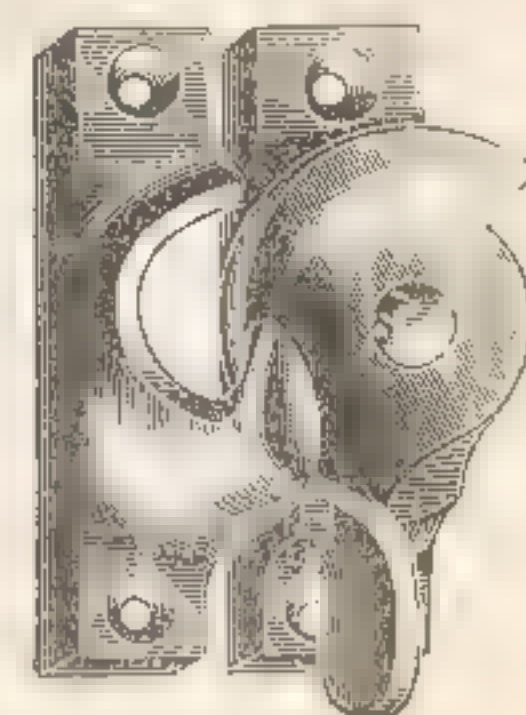

By an ingenious mechanism, a turn of the knob causes the grapplers to clutch the catch plate and securely lock the sashes.
It draws close together badly fitting sashes, and lifts up dropping sashes, and thus prevents rattling in windy weather.

Absolutely Secure.

Simple in Action.

SPECIAL QUOTATIONS FOR RABBIT PROOF NETTING IN MILE LOTS

WIRE NETTING, WIRE STAPLES, ETC.

No. 5692—GALVANIZED WIRE NETTING

The following Sizes always in Stock. Sizes not mentioned on this List can be procured or made at short notice.

	Mesh	$\frac{1}{2}$	$\frac{3}{4}$	1	$1\frac{1}{4}$	$1\frac{1}{2}$	$1\frac{3}{4}$	2	$2\frac{1}{2}$	3	4 inch.
Width	18	20	24	30	36	42	48	60	72 inch.		

Special Quotations for Rabbit Proof Netting in Mile Lots.

No. 5693

FENCING STAPLES

Galvanized and Bright, in 1 cwt.
 $\frac{3}{4} \times 12$, 1×10 , $1\frac{1}{4} \times 9$, $1\frac{1}{2} \times 8$, $1\frac{3}{4} \times 8$ G.

No. 5694

NETTING STAPLES

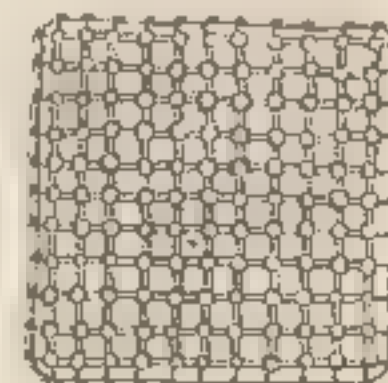

Galvanized and Bright (Slice Point).

In packets of 1 gross.

$\frac{1}{2} \times 16$ $\frac{5}{8} \times 14$ $\frac{3}{4} \times 12$ G.

No. 5695

BRASS WIRE GAUZE

24 in. wide $\times$ 30 and 36 in. mesh.

WIRE

No. 5696

AMERICAN GREEN WIRE CLOTH

24 30 36 inch wide.
In rolls of 100 running feet.

No. 5697

GALVANIZED BINDING WIRE

In 7 lbs. and 14 lbs. 12 to 24 G.

No. 5698

BLACK ANNEALED WIRE

In 1 lb. and $\frac{1}{2}$ lb. 18 to 32 G.

No. 5699

BRASS WIRE

In $\frac{1}{2}$ lb. rings, or on $\frac{1}{2}$ lb. reels. 16 to 24 G.

No. 5700

HARD BRASS WIRE

7 lb. rings. 6 to 16 G.

No. 5701

COPPER WIRE

In $\frac{1}{2}$ lb. rings, 7 lb. rings, $\frac{1}{2}$ lb. reels. 14 to 28 G.

No. 5702

BRUSHMAKERS' COPPER WIRE

In 7 lbs. 19 G.

No. 5703

TINNED WIRE

In $\frac{1}{2}$ lb. rings, and $\frac{1}{2}$ lb. reels. 20 to 30 G.

No. 5704

FLORISTS' ANNEALED WIRE

In 8 inch lengths. 24 and 28 G.

No. 5705

TINNED BOTTLING WIRE

7 lb. bundles. 15 in. lengths. 22 and 24 G.

No. 5706

TWO HORSES DO THE WORK OF FOUR

The Saving effected under these Conditions Pays 500 to 1000 per cent. per annum on the Investment in the Axles.

No. 6515

GUARANTEED FOR TWO YEARS, WILL LAST TWENTY.

50 PER CENT. REDUCTION OF DRAFT

By increasing the Load 25 to 50% INCREASED EARNING CAPACITY of the Wagon is apparent.

When the Wagon cannot accommodate a large load, the Draft on horses is Reduced 50%, therefore they get over the ground faster and remain in better physical condition.

RECEIVED —

When you find this Trade Mark on Roofing and Dampcourse you know you have the Best

1.—Ventilated Ridge laid over Wire Netting 2.—Ordinary Ridge laid over Boards
3.—Details of a Roof laid on Wire Netting

N.B.—Wire Netting should not be used where subject to heavy hailstones

If liable to hailstones over three-quarters of an inch in diameter, wood backing should be used, and is perfectly safe

1.—Malthoid Roofing laid over Boards 2.—Gutter formed with Malthoid Roofing
3. Nosing over Barge Board

We shall always be pleased to send Samples of Malthoid and P. & B. Goods promptly on request

MALTHOID ROOFING

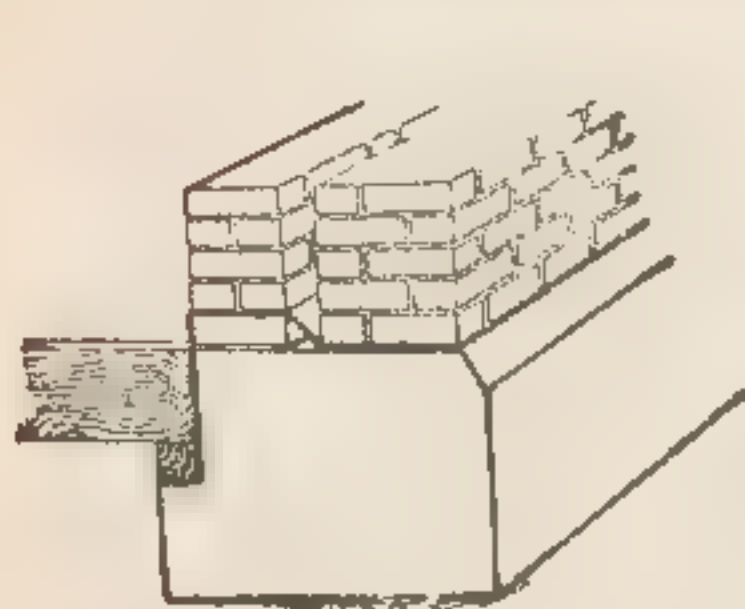

ENDURANCE—Malthoid requires but little attention after being properly laid according to the directions placed in each roll. Unlike most ready roofings, it does not require a protective coating of paint at the time of laying. It is finished when the seams are cemented, the nails driven, and the nail heads coated. Later on (eighteen months or so), a coat of P. & B. Red Roof Paint may be applied to advantage, and after that, say about every three to five years, after which Malthoid will outlast the building it covers. Without this extra coating of paint, Malthoid will outlast any portable roofing of a similar character

WEIGHTS.—Malthoid is made in four thicknesses, and weighs as follows per roll:—Half ply, 58 lbs.; 1 ply, 80 lbs.; 2 ply, 90 lbs.; 3 ply, 114 lbs. These weights are inclusive of nails, cement, paint and washers, which are packed in separate packages, and weigh about 8 lbs. to the roll.

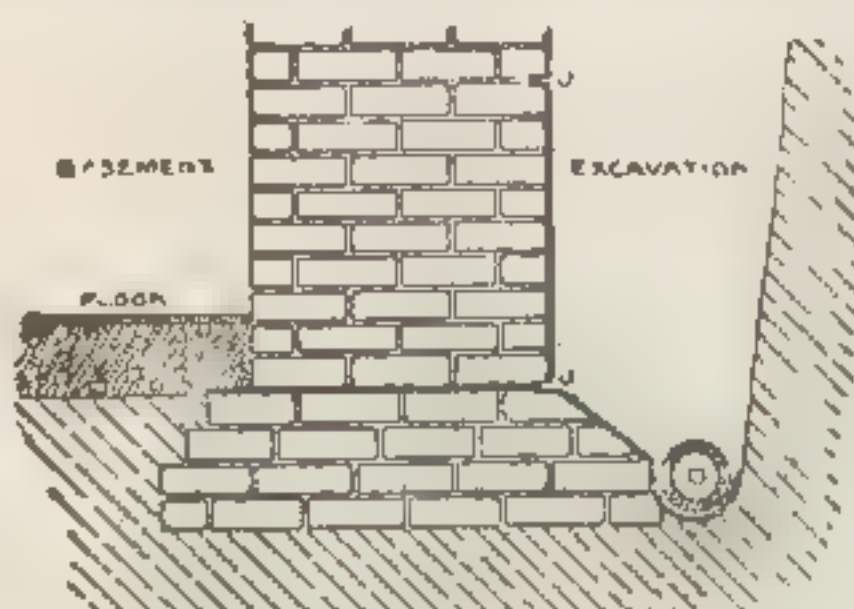

ASK FOR THIS BRAND OF
BUILDING PAPER, PRESERVATIVE PAINT, RED ROOF PAINT & MALTHINE PAINT

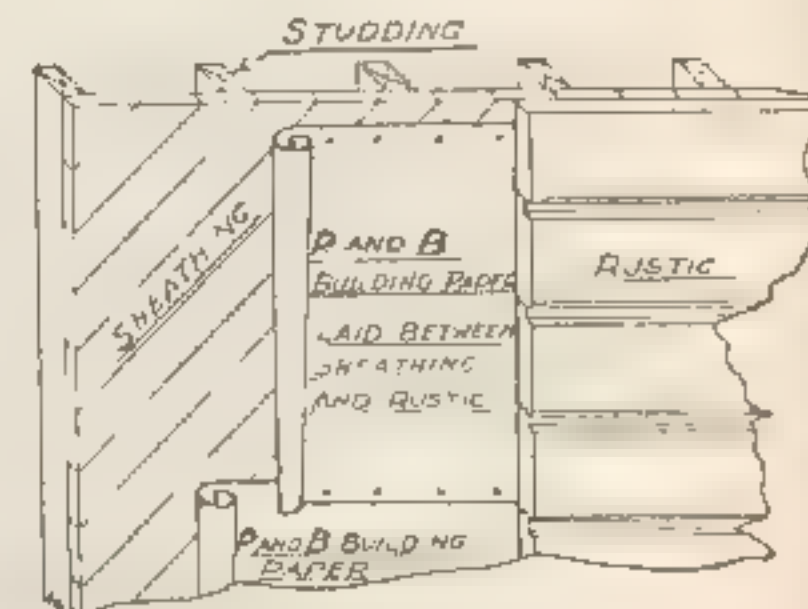

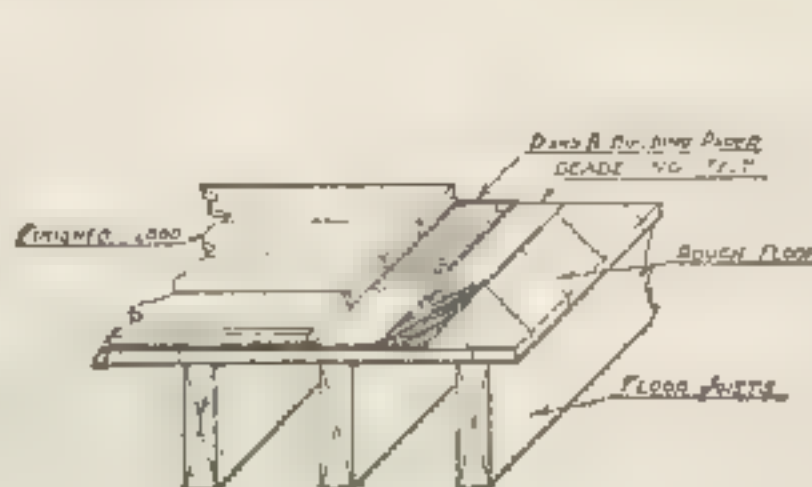

An approved method of Waterproofing Floors, and also of rendering them impervious to earth and sewer gases and objectionable odours.

Horizontal Dampcourse

Vertical Dampcourse

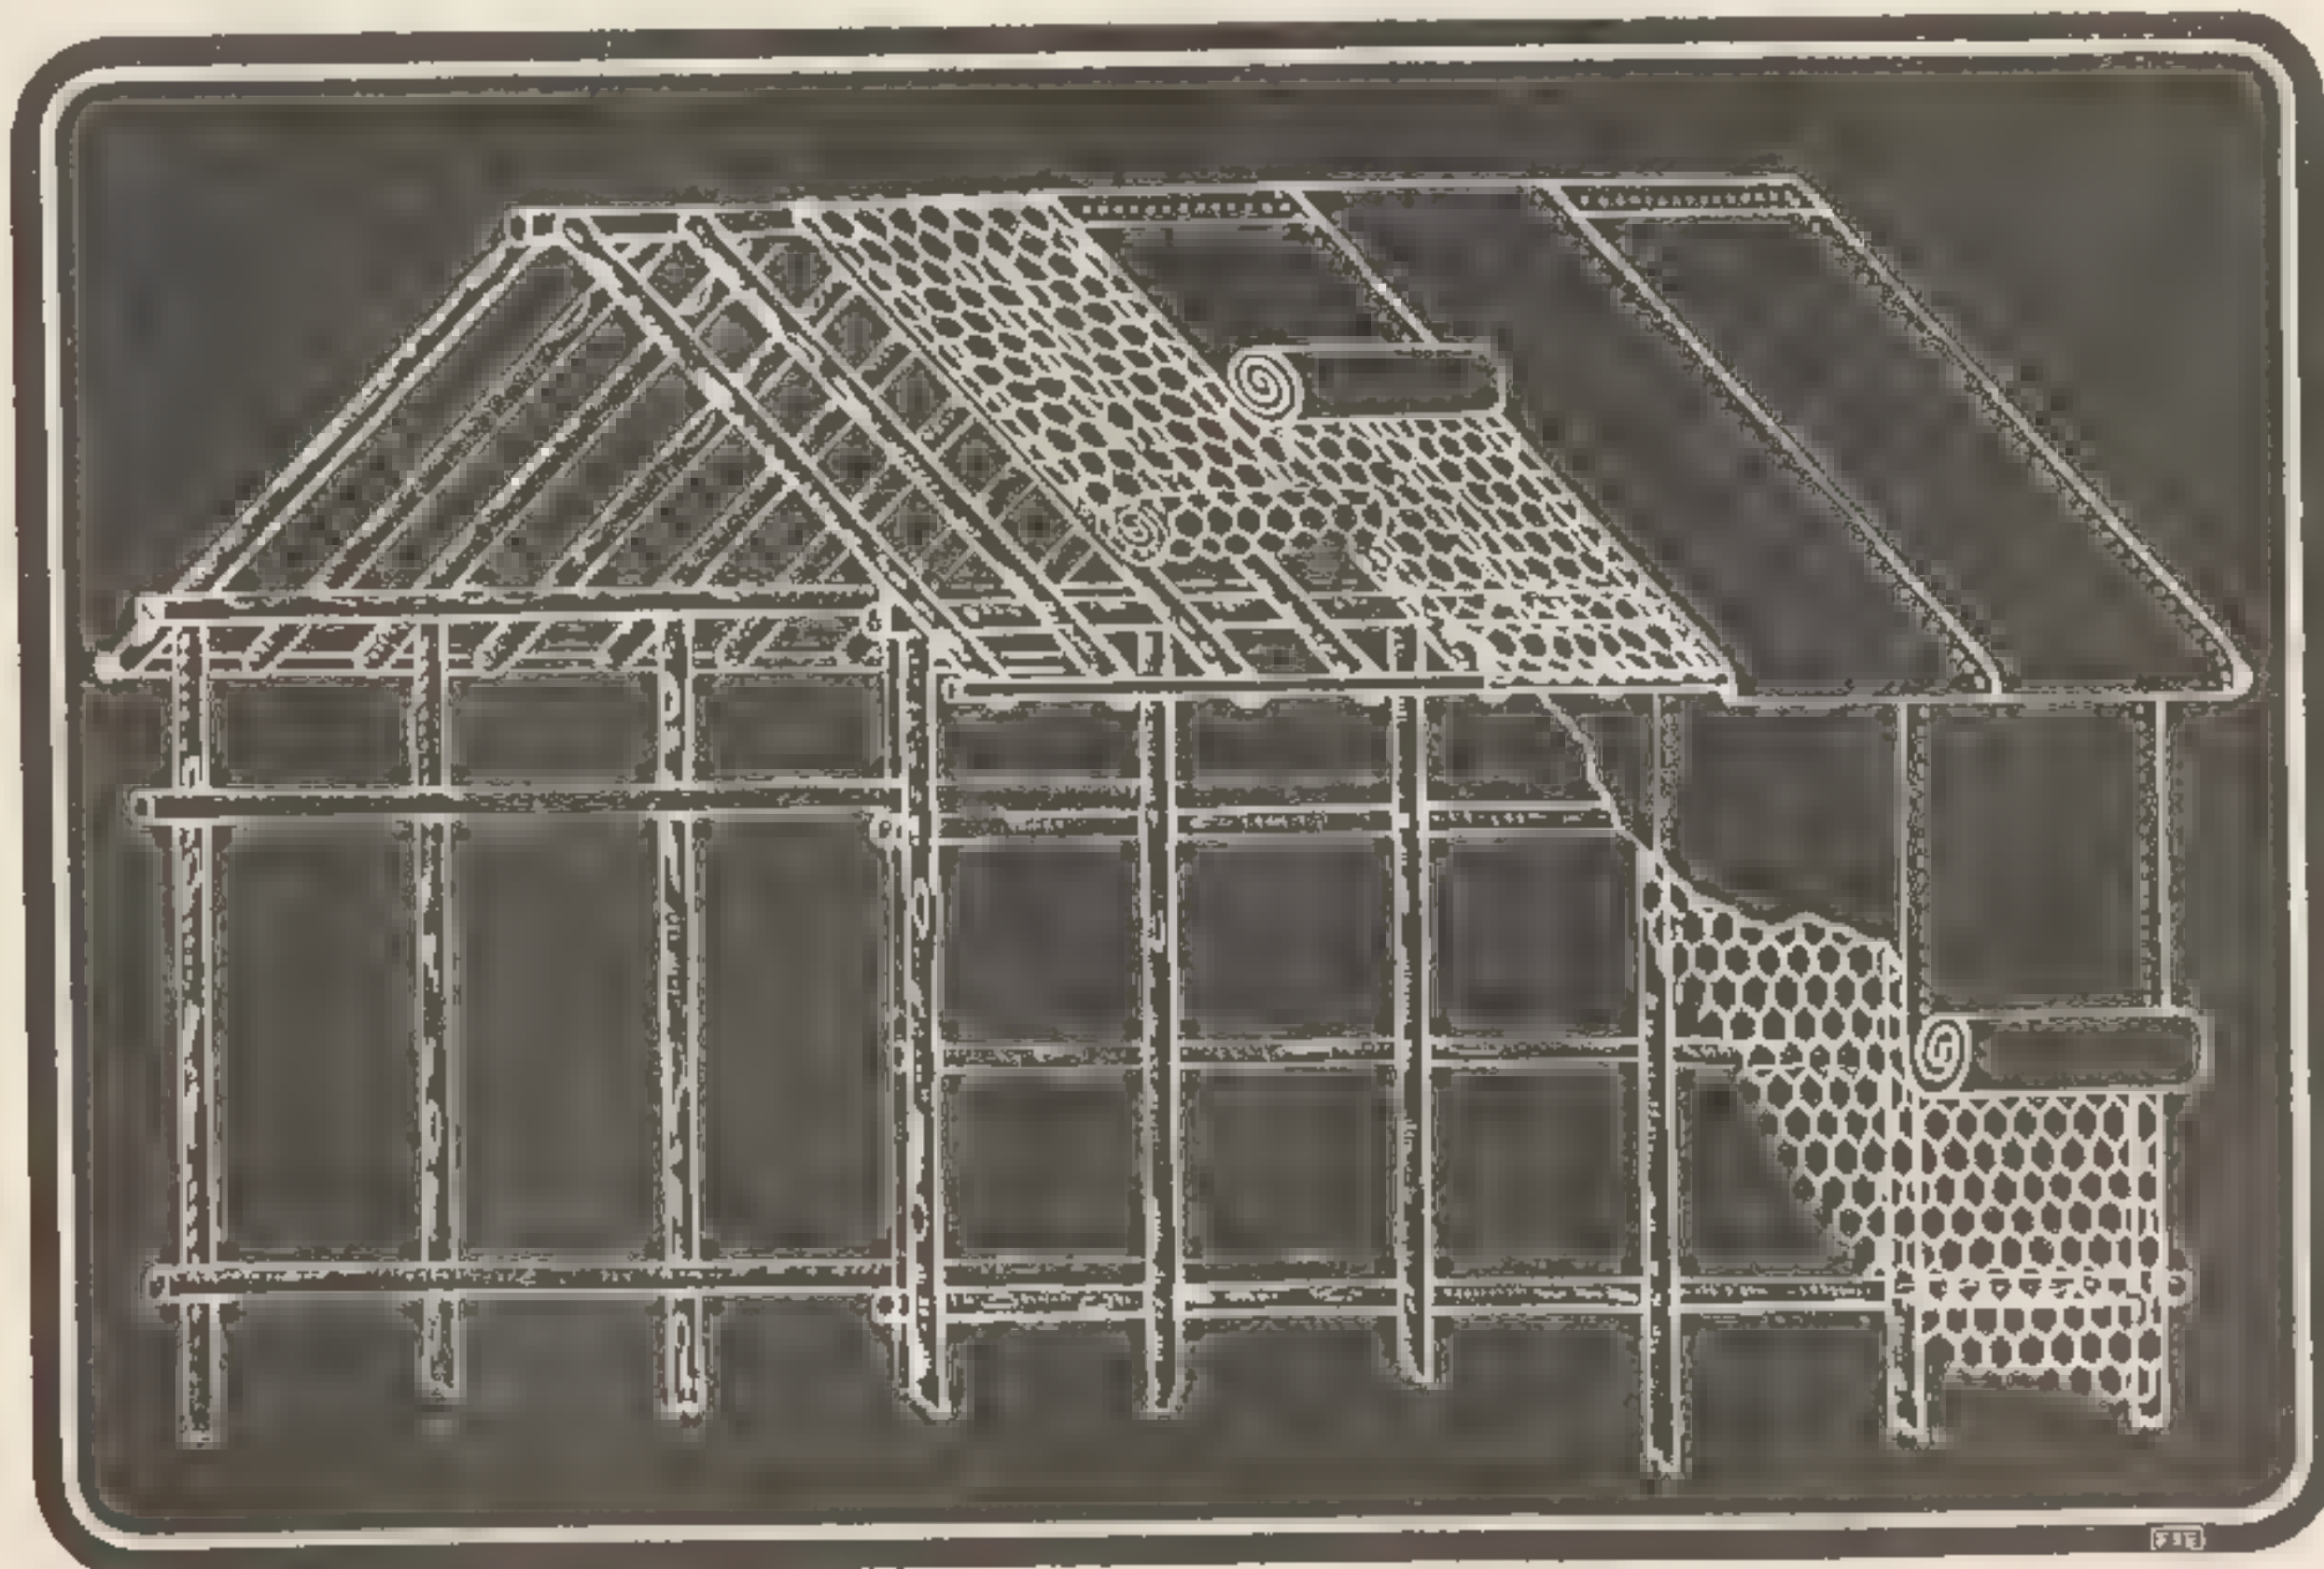

MALTHOID DAMPCOURSE

Is used in foundations of buildings to prevent the transmission of moisture up into the wall of the place of business, or of the home, and is one of the greatest safeguards to health and life. But it must be permanent. It is also used with great success over window and door openings and under window sills in cavity walls.

P. & B. BUILDING PAPER

The essentials of a perfect Building Paper are strength, durability, imperviousness to moisture and absence of odour. P. & B. Building Paper fulfils these requirements fully and is the only Building Paper manufactured that does. It is made of rope Manila fibre, which gives it great tensile strength. It is saturated and coated with P. & B. Compound, which makes it durable, waterproof and odourless.

MALTHOID ROOFING

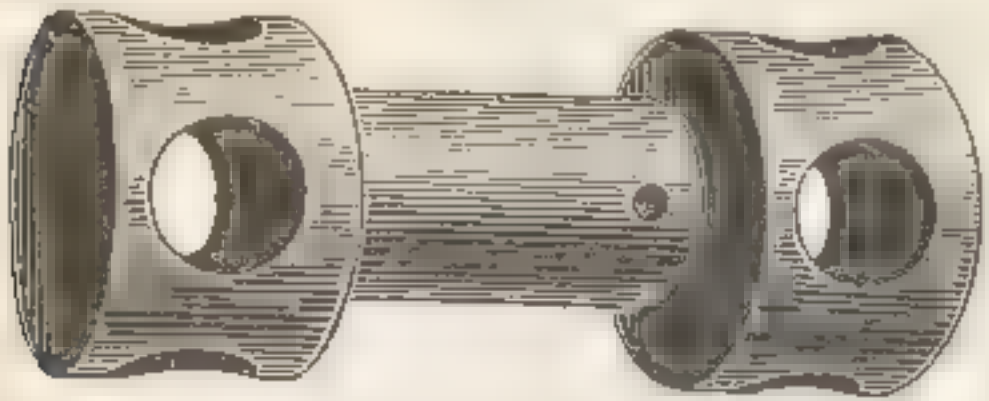

MALTHOID makes a roof comfortable all the year round

You can build a humpy quickly and cheaply by laying MALTHOID over wire netting

USE

Red Hand Nail

Red Head Utility File
\$1.00 each

P *\$1.00 each*
RIMARILY designed for sharpening mower sections, it has so many uses around the farm, home, and shop, that its original purpose has been eclipsed. Faster than a steel file on any job.

ESTABLISHED 1823

Printed in U. S. A.

A SHARPENING DEVICE FOR EVERYTHING THAT HAS AN EDGE

6" India Combination Oilstones
\$1.25 each

THE natural choice of professional and amateur mechanics, because of their fast-cutting and long-wearing qualities. Very efficient, they cut without noise or fuss. Available in 75 shapes and sizes.

Grinding Wheels

JUST the right replacement wheel for your hand or power grinder that has been neglected so long. Packed in individual cartons.

Safety Razor Blade
Strop
\$1.00 each

THE ultimate in stroppers. Indispensable to comfort and economy. Makes blades last for weeks. It gives that head-barber diagonal stroke to the blade.

Kantbreak
Knife Sharpener
50c each

THERE is no legitimate excuse for mutilating a bird or other roast with a dull carving knife, when its edge can be restored so rapidly with a few light strokes on this sharpener.

India Pocket Stone
20c each

EVERY man at some time has been annoyed by a dull pocket knife. A small investment in one of these will insure the means of having knife blades of razor keenness.
